**LARGE ZINC
SMELTING COMPANY
IS BANKRUPT**

By Associated Press
JOPLIN, Mo., Feb. 7.—The A. B. Cockerill Smelting company, one of the largest zinc smelting concerns in the United States, is on the verge of bankruptcy. Confirmation of a rumor to this effect was made by A. B. Cockerill, president of the company today. The National Bank of Commerce of St. Louis and Geo. E. Nicholson of Kansas City, who hold bonds issued by the company to the extent of \$1,200,000, have been in charge of the company's properties for several days. According to Cockerill, a formal assignment will probably be made tomorrow. The failure to recover from the effect of the panic of 1907, with the present ore situation, is given as the reason for the failure.

STOCK MARKET

While there were spots of weakness pervading the general tone of the stock market yesterday, the outcome of the day's trading brought an advance for Tonopah securities, while the Goldfield list declined. Tonopah Mining was the feature with an advance of 12 1/2 cents. Belmont showed up strong at the finish and recorded a five-point gain. Jim Butler crept up one cog.

Consolidated of Goldfield sluffed off for 14 1/2 cents while Florence was a close second with a loss of 12 points. Fraction declined four points.

CHANGED TO NATIONAL BANK.

J. W. **WHERE NEVADA
RANGE HORSEH GO**

In an official report to the Illinois state food commission, State Inspector Hoe says that horses are being slaughtered by the wholesale in Chicago and that the meat is being sold and distributed for human consumption.

The meat, he says, is being cut in roasts, steaks and sausages, and is being sold to free lunch vendors in Chicago, and to some farming districts and mining camps where foreigners are employed.

Heretofore, says the report, it was the general belief that all horse meat prepared in Chicago was for shipment to Copenhagen, and the fact that it is being put up for home consumption is looked upon as necessitating a new state law regulating the killing of horses. All horse killing establishments, it was reported, were small slaughter houses. In one place it was found 15 horses a week were killed. Products of the place went to Wisconsin and Illinois.

Inquiry at a cheap boarding house district showed that "meat" was purchased at 6 cents a pound, when butchers in the neighborhood were asking 9 cents for the cheapest meat.

WILL BE TRIED HERE.

Word has been received in this city that Sidney Flower, better known as Parmener Kent, and who is under indictment in the federal court for unlawfully using the mails, will be brought to this city. Kent was indicted some time ago with a lot of others for using the mails to promote wildcat mining schemes.

Flower formerly ran the Goldfield Gossip which was printed in this city. He is a clever fellow to meet and will probably put up a pretty stiff fight in the courts.

A deputy from the United States marshal's office has gone east to bring him to this city.—Carson Appeal.
